Please enter the following information for all group members, even if you already entered it in a previous step.

Project Information

Answer each question completely

Title *

Project Summary (under 150 words) *

Using non technical terms, provide a brief summary of the project.

Significance (under 150 words) *

In non-technical terms, why is this work important and meaningful?

Research Plan (no more than 450 words) *

Please describe your research question(s) and method(s). Description should be detailed. They should be written for an educated but non-technical audience. References are not required in application but should be made available upon request.

Unique Contribution

Projects may vary from an idea the student may want to pursue, to a joint student-faculty project, to a project that is part of the faculty member's ongoing research program. Concisely describe your unique contribution and the skills YOU bring to bear on the work. How are YOU qualified to do this research?

Budget & Justification

Your budget/budget justification is a vital part of your application. Please be as detailed as possible.

Budget details

Please round to the nearest dollar and be sure to include all shipping costs. When budgeting for travel costs, please use the standard GSA per diem rates https://www.gsa.gov/portal/ category/100120

1. Lab supplies	
2. Materials and Supplies	
3. Travel	
4. Participant Compensation	
5. Personnel or Consultants	
6. Miscellaneous	
7. Copy Center	

Total Amount of Request *

Budget Explanation and Justification *

Please list each item. For each item, explain WHY it is necessary. It is very important to have a solid budget justification for each item.

Does this project involve human subjects research? *

Does this project involve the use of animals? *

Does this project involve international travel? *

If Providence College continues with remote learning, I can still continue my research as described.

If no, please submit a contingency plan
